About the founder...

My name is Kimberly Eddins. I am the owner, founder, and lead instructor at the **Georgia Barber Institute** located in Conyers, Ga.. We are currently the only barber school in Conyers. I have been in the industry for over 30 years and I have been an educator for some of the top schools in Georgia for over 20 years. I decided to not only open a school but to incorporate a non-profit arm focused on licensure. The reason being I want to pass the torch and make sure our profession maintains its historic relevance, its prestige and also makes room for - YOU. I know that one of our biggest obstacles is that, for various reasons, creative thinkers run into problems just trying to make positive moves in life. So I want to provide a way for you to obtain licenses in Barbering -one of the oldest most creative professions in the world. No matter your circumstance or where you come from, be it recovery, re-entry, a troubled youth, an unlicensed barber -we are going to meet you where you are...
